InnoDent specializes in selling advanced dental equipment and technology. Our mission is to provide dental professionals with cutting-edge tools to enhance their practice efficiency and patient care through digital dentistry solutions.

## Full Arch Restoration

# All on X

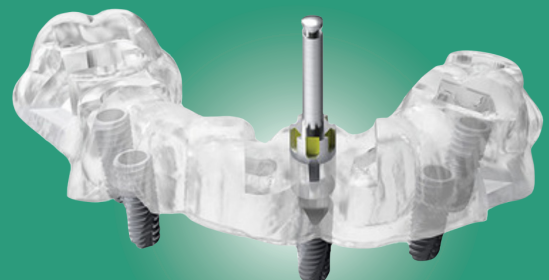

InnoLab is a premium laboratory for digital dentistry with decades of experience. Our CAD/CAM experts craft high-quality dental prosthetics including implants, crowns, and full arch restorations supporting all implant systems in the market.

## Veneer / Crown / Bridge

## Implant Surgery

InnoGuide designs and manufactures surgical guides using 3Shape Implant Studio technology. Our guides ensure restorative-driven implant positioning for functional, aesthetic outcomes with predictable treatment solutions across all implant systems.

Premium Clear Aligners

# Australian-made

InnoSmile specializes in innovative clear aligner therapy. Our transparent, removable aligners are designed and manufactured in our Australian facility, combining digital planning with precision fabrication for exceptional comfort, aesthetics, and effective teeth alignment.
